

Specifics-Measurable-Achievable-Relevant-TimeBound GOALS

A large, stylized blue letter 'S' with a black outline and small black dots scattered around it.

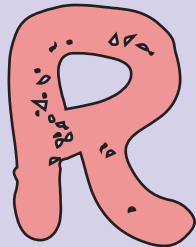

I want to become a graphic designer for Marvel and Sony Animations in California down the line. I may potentially even want to create my clothing line and professionally become a well-known designer.

A large, stylized green letter 'M' with a black outline and small black dots scattered around it.

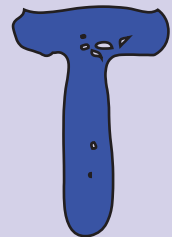

Going to school is the first step to show that I am certified in what I love to do. Also, promote myself on social media as much as possible to put a name to the face that way I can be known.

A large, stylized yellow letter 'A' with a black outline and small black dots scattered around it.

Settling goals that you will not be able to accomplish doesn't make sense for anyone. If the goal is to open up a business firm but not good at managing, something I would do is take more classes or even have a few practices, chasing a new goal everyday at a certain timeframe.

A large, stylized red letter 'R' with a black outline and small black dots scattered around it.

Taking the time to reach the goal as far as studying, watching YouTube videos, creating examples, and also, go to the internships to see what they can teach me.

A large, stylized blue letter 'T' with a black outline and small black dots scattered around it.

Graphic design would take me about 2-3 months to get more advantages and skills to really become better and enhance my skills as a designer. I want to make sure everything is implanted in my head with the assist of technology and social media.
